

Telemedicine Visits - How to download an application

To prepare for your telemed appointment, follow the instructions below. Instructions are organized by the type of device you may use: Iphone/Ipad, Android, Desktop Computer (Windows), Desktop Computer (Mac)

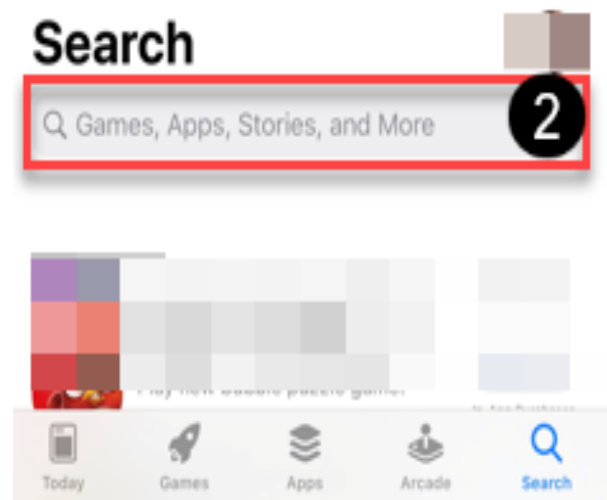

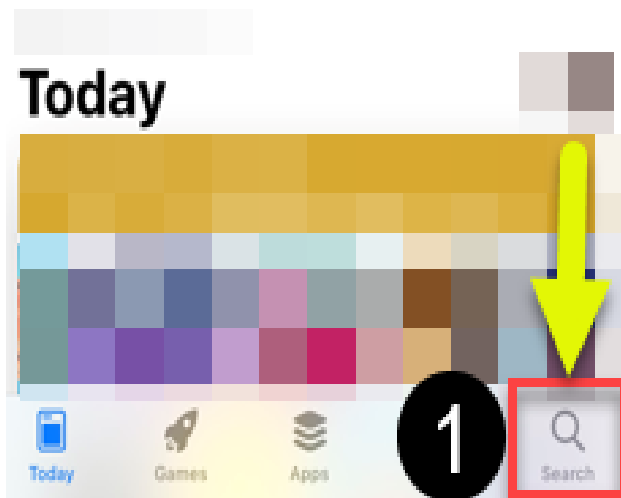

Iphone or Ipad:

Microsoft Teams

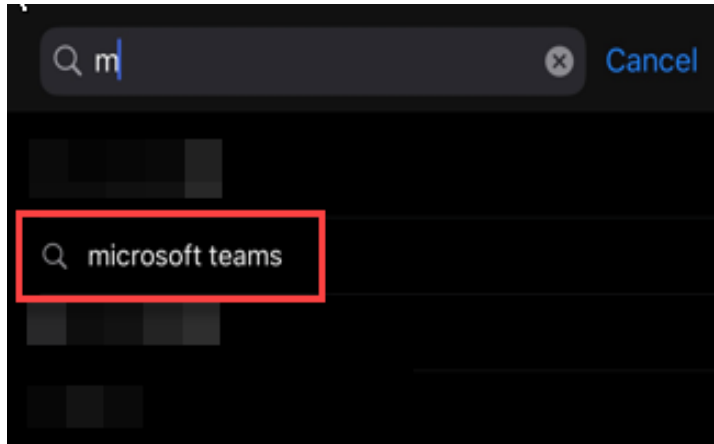

Step 1: Open the “App Store” application

Step 2: Select “Search” located on the bottom right of the App Store Application. A Search Bar will appear on the screen:

Step 3: In the Search Bar, type “M”. As you type, a list of search results will appear. Select ‘Microsoft Teams’ to continue.

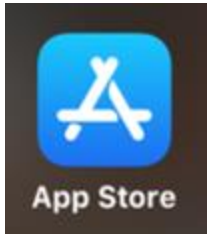

Step 4: Once the ‘Microsoft Teams’ result is selected, the full application will appear on the screen. Select “Get” to begin the download.

NOTE: It is possible that an Apple ID password will be needed to continue the download. Once the download is complete, select “Open” to open the App.

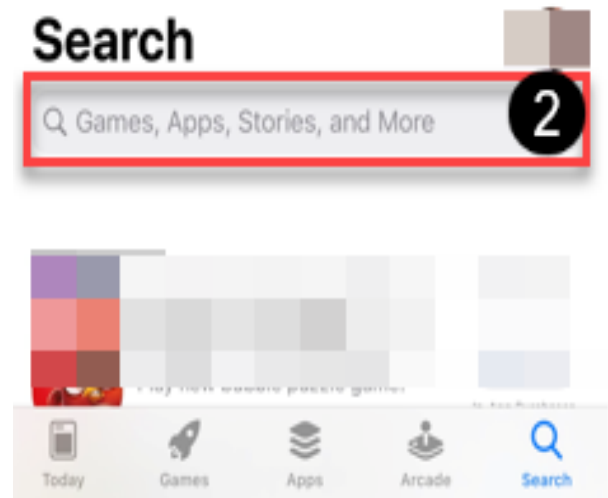

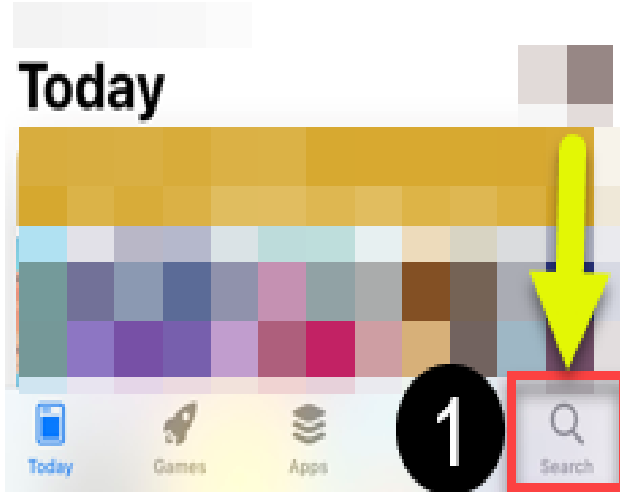

Zoom

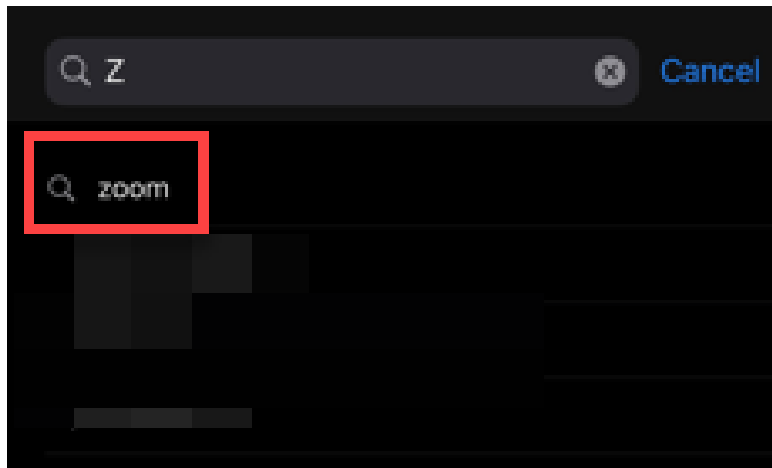

Step 1: Open the “App Store” application

Step 2: Select “Search” located on the bottom right of the App Store Application. A Search Bar will appear on the screen:

Step 3: In the Search Bar, type “Z”. As you type, a list of search results will appear. Select ‘Zoom’ to continue.

Step 4: Once the ‘Zoom’ result is selected, the full application will appear on the screen. Select “Get” to begin the download.

NOTE: It is possible that an Apple ID password will be needed to continue the download. Once the download is complete, select “Open” to open the App.
